1. How will the LEA, to the greatest extent practicable, support prevention and mitigation policies in line with the most up-to-date guidance from the CDC for the reopening and operation of school facilities in order to continuously and safely open and operate schools for in-person learning?

The district will continue to practice and reinforce proper handwashing and hygiene. The district will monitor guidance from the CDC at least every 6 months and adjust the plan accordingly.

2. How will the LEA ensure continuity of services, including but not limited to services to address the students' academic needs, and students' and staff members' social, emotional, mental health, and other needs, which may include student health and food services?

We will continue to use the resources available to us when students are identified as needing additional services.
